

Sample of 4VCS switch with additional normal wired deck

Mixed wafers

This switch can have one PCB deck only, but if you need more poles, we can make multideck switches as well (maximum: 5 decks), using normal wired wafers.

You'll connect these wafers to your PCB by short stiff cables.

RohS Conformity: this product is compliant to european directive 2002/95/CEE - 27/01/2003
